

Why Choose the Eco-Thermosteam ECO-710?

Provides fast effective testing of electronic components, boards and modules, for PCBs and small assemblies

- Low energy, quiet system
- Noise level <56 dBA

Eco Friendly/Low Noise System

- Auto power reduction when system is idle.
- Economically efficient
- 20 amp operation

- No annual leak testing required per EU 517/2014

No Leakage Test

- No need for liquid nitrogen (LN₂) or liquid carbon dioxide (LCO₂)

- Rapid temperature transitions -55°C to 125°C in 10 seconds

Fast/High Speed Testing

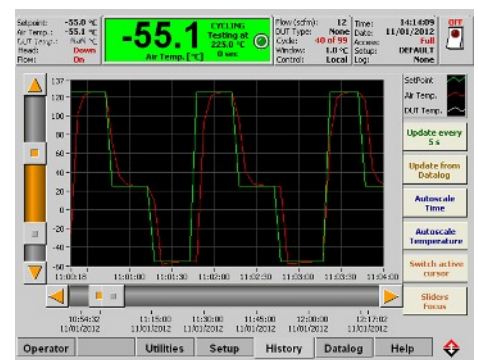

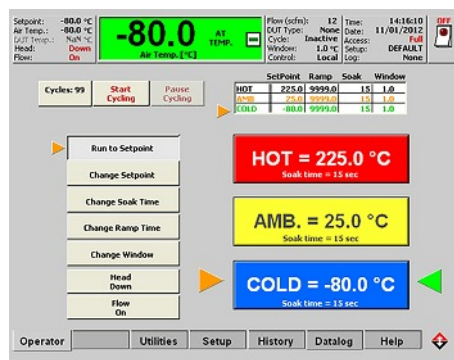

- Temperature range: -80°C to + 225°C 50/60Hz)
- Heated defrost feature

Perfect solution for those organisations keen to reduce carbon emissions and noise pollution.

The only system in its class that saves expense of performing annual leak checks.
