

Thermal Module

Thermal Management

Highly-optimized thermal management module designed to minimize volume and weight. Turnkey service providing access to years of thermal analysis and design experience.

Applications

- Instrumentations
- Industrial PC
- Telecommunications

Features

- Simulation support
- Lightweight heatpipe design
- Turnkey solution
 - Simulation
 - Metal fabrication: CNC/Cast/Extrusion
 - Heatpipe low temperature soldered on Metal
 - Liquid-cooling Module
 - Thermal Interface Material
