

Wolfspeed (A Cree Company) Appoint Melcom Electronics as the Exclusive UK and Ireland Representative.

3rd July 2017

MELCOM Electronics Ltd is very pleased to announce that as of the 3rd July 2017, we are the Exclusive UK & Ireland Representative of Wolfspeed, a Cree company.

Wolfspeed is the premier provider of the most field-tested RF solutions in the world. Wolfspeed's wide bandgap semiconductors far outperform conventional silicon components and set new standards for efficiency and reliability in applications for aerospace, commercial, industrial, transportation, energy exploration, renewable energy, solar, test and measurement, and more.

MELCOM Electronics Ltd was established in 1995 and is a leading value-add representative company, operating in the UK and Ireland. The

company has a broad portfolio of products ranging from RF, Microwave and mmW components to sub-system modules and test equipment, enabling a broad appeal to our customers. MELCOM strives to add the maximum technical and commercial support to our customers in market sectors including Defence, Space, Commercial Comms, Test & Measurement, Aerospace and ISM.
