JOIN US FOR A BOONTON WEBINAR

DO YOU DESIGN, VERIFY OR MAINTAIN COMMUNICATIONS AND RADAR SYSTEMS BY UTILISING WIDEBAND OR PULSED SIGNALS?

- Are you striving to better characterise Signal Waveforms?
- Aim to design higher quality products?
- Reduce the cost of testing?
- To fully utilise your test equipment for higher return on investment and future proof your investments?

If so, join a one to one webinar with Boonton to learn more

New PMX40 RF Power Meter

Click below for presentation

- The PMX40 RF Power Meter is an ideal tool for design, verification and maintenance of communications and radar systems utilising wideband or pulsed signals.
- The PMX40 is the future of RF power measurement providing benchtop capability, USB sensor flexibility, and touch screen operational simplicity.
