inTEST Thermal Solutions
an inTEST Company

**THE KEY ADVANTAGES OF
inTEST's DCP SOLUTION**

**THE THERMOSPOT DCP SYSTEM IS THE PERECT TEMPERATURE TEST
SOLUTION FOR LABORATORY ENVIRONMENTS THAT HAVE MINIMAL OR
COMPACT FACILTIES AND QUIET OPERATION**

Rental options now available for all Thermostream and DCP solutions

Why choose the DCP Solution?

- Superior cooling performance over other solutions
- Thermoelectric modules are NOT used = no heating loss at head over repeated cycles
- The Thermal head is cooled with refrigerants, not fluid
- Low electrical noise = less interference to product test
- Head temperature is measured and displayed to ensure good contact with DUT
- Variety of head stands available
- Ethernet/RS-232/IEEE-488 Comms available
- Proven record for quality and reliability
- Worldwide service and support

DCP ThermoSpot Models

DCP-101 Benchtop
(20 W capacity at -40°C)

- Temperature Range: -55 to 175°C
- Cooling Power: 20W at -40°C
- 25 to -40°C <2.5 min.
- Easy and secure thermal connection to DUT
- Self-contained, quiet benchtop unit
- No facilities air supply required
- Communications: Ethernet, USB, IEEE, RS232

DCP-102 Benchtop
(55 W capacity at -40°C)

- Temperature Range: -65 to 175°C
- Cooling Power: 55W at -55°C; 125W at -40°C
- 25 to -40°C <35 sec.
- Easy and secure thermal connection to DUT
- Self-contained, quiet benchtop unit
- No facilities air supply required
- Communications: Ethernet, USB, IEEE, RS232
