IRONWOOD ELECTRONICS APPOINT MELCOM AS THE UK & IRELAND REPRESENTATIVE

SPECIALISTS IN HIGH PERFORMANCE TEST SOCKETS AND ADAPTORS IN ENGINEERING & PRODUCTION USE OF SEMICONDUCTOR DEVICES

- Sockets/Fixtures
- Grypper Technology
- Board-to-Board Connectors
- Adaptors
- Turn-Key
- Custom Solutions

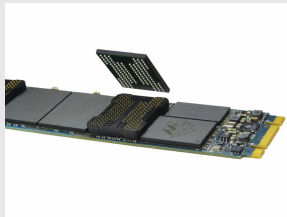

Sockets/Fixtures

DC to 110 GHz performance BGA sockets, WLCSP sockets, BGA sockets and QFN sockets utilise smallest industry footprint that accommodates 0.2mm device pitch up to 10,000

[Click here for full product range](#)

Grypper Technology

Zero footprint BGA socket for Characterisation & Failure analysis accommodates device pitch of 0.35mm and above. Device pincount up to 3600

[Click here for full product range](#)

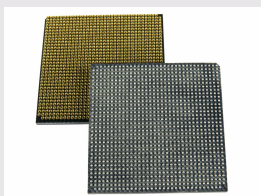

Board-to-Board Connectors

Connectors using spring pin, elastomer and pin/socket interconnect technology provide up to 94 GHz signal speed in smallest footprint for prototype and production applications

[Click here for full product range](#)

Adaptors

BGA socket adaptor systems and Board-to-Board interconnection for engineering and production use of devices with pitch 0.75mm and above Device pincount up to 2000

[Click here for full product range](#)

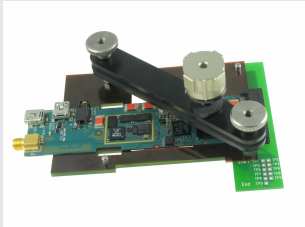

Turn-key

Solutions includes high density PCB design & manufacturing, IC/component procurement services, automated pick & place assembly (both SMT & through hole), in-circuit/boundary scan test and tray, tape & reel packaging

[Click here for full product range](#)

Custom Solutions

Quick turn custom solutions are Ironwood's specialty. Examples includes 30amp spring pin socket for DC-DC module, spider socket that mounts on to existing holes in the production PCB, custom configuration module socket
